Parallelism Plane to Plane - Quality of callouts

				Legal callout?	Regarding probing points min.-max.?	Regarding the derived element?	Modifier (P) makes sense?	Modifier (T) makes sense?	Diameter symbol required?
//	0,5	A		Yes	Yes

Parallelism Plane to Plane - Measurement strategy

					Difference of Min.-coord. and Max.-coord.	Regarding LSQ or OTE (Derived Element)	New coord.-sys. according plane-vector	Regarding (P) value as a point distance	2 theoret. points according (P) value and 3D line	3D line as a feature of Parallelism
