**CALYPSO O-INSPECT Optics + curve Training at ZEISS**

Classroom • Metrology • IQS CALYPSO • Advanced

This training enables the application-oriented use of the optical sensor with ZEISS CALYPSO for O-INSPECT as well as the application of ZEISS CALYPSO curve.

**CALYPSO PCM Training at ZEISS Online**

Classroom • Metrology • IQS CALYPSO • Advanced

This training focuses on the CALYPSO PCM software option; demonstrating tools, functions and techniques working with this option for advanced measurement.

- Choose from several filter options including Subject, Type (Classroom, eLearning, Live Online, Videos), Language, State, Date, etc.
- Are you looking for a specific training topic? Type the topic name in the Search Box and it will search across all Types of content (i.e. Classroom, eLearning, Live Online, Video).

### eLearning example:

**CALYPSO Dynamic Planning Overview eLearning**

eLearning Training

[← Back to all trainings](#)

Subject: IQS Level 1 Language:  Level: Basic

Description

**Learning Objective**

- Use the Dynamic Planning option to improve efficiency and productivity.
- Configure Dynamic Planning with the appropriate inspection scope files and PiWeb protocols.
- Implement the forced selection and counter functionalities, if desired.

**Target Group**  
Users of ZEISS CALYPSO

**Prerequisites**  
Knowledge of ZEISS CALYPSO software

**Note:** Content of the course (curriculum) is only available in English

**Contact:**
